### SUMMARY

**Currently seeking a software development role.** Self-Taught various programming languages primarily with emphasis primarily on Web Applications. Strong grasp of technologies (e.g. Javascript, JQuery, AngularJS, Java, PHP, HTML5/CSS3,) and attention to detail. **Feel free to check out my GitHub for some of my current projects I am working on.**

#### Technology Summary

- Web Technologies: JavaScript/JQuery, AngularJS, NodeJS, JSON, Ruby on Rails, and HTML/CSS
- Web/Application Server: Apache,
- Databases: MYSQL, Firebase/Angular Fire (no-SQL),
- Frameworks: AngularJS, Laravel (MVC), Bootstrap, LESS
- Other: Java SE , Ajax, Git, REST
- Design & IDE Tools: Eclipse Luna Platform EE, Netbeans EE, Sublime Text 2, Photoshop CS6
- Operating Systems: Windows 7/10, Mac OS X

### PROFESSIONAL EXPERIENCE

#### WEB DESIGNER/WEB DESIGN CONSULTANT

##### CDK Global – Seattle, WA 2015 to Present

*Maintain GM (General Motors) Dealership Websites while influencing growth of the dealer's business.*

- Build out landing pages using front-end technologies (Javascript/Jquery/AngularJS)
- Re-design landing pages to increase the overall flow of the dealer's website navigation and user experience
- Built a CMS for tracking our team's internal awards
- Team Technical SME: QA Javascript code that comes in from 3<sup>rd</sup> parties prior to implementation on General Motor sites
- Monthly maintenance of each account ensures the dealer's website supports the goals/objectives of the dealership

#### WEB DEVELOPER

##### Various Clients – Seattle, WA 2013 to Present

*Responsible for working on a range of projects, developing/designing appealing websites and interacting on a daily basis with graphic designers, back-end developers and marketers.*

**PrepCar- December 2015-Current:** A startup where I developed the entire UI mockup. Synchronized the site with client's inventory and linking user profiles to a Firebase database using RESTful web services and protocols. <https://prepcar-199b7.firebaseio.com/#/home>

**Washington Asbestos Testing LLC 2015-December 2015:** Re-built an Asbestos Testing Company's responsive website. Quickly identified issues with existing site, conducted market research, created

concept for new site and gained approval to redesign the web presence in order to drive additional business to their headquarters. Currently implementing an option for potential customers to pre-pay for Asbestos Testing training. <https://washington-asbestos-llc.firebaseio.com/#/>

**Personal Projects: 2013-Present:** Local chat server, PHP Authentication pages, Several PHP Content Management System (CMS), and a Social Media platform. Majority use MYSQL as a database as well as Firebase. Also, Java backend applications such as a Directory Scanner and a Web Crawler. Developed a secure web application and back-end database using Laravel for a social media platform (Talk-Now on GitHub).

## **VENDOR MANAGER**

**Wipro/Pontoon Solutions** – Seattle, WA

**2014 to 2015**

Facilitating program Standard Operating Procedures (SOP) training and updates to supplier community on a regular basis to ensure understanding and compliance.

- Establish and maintain a proactive, positive working relationship with client end users through regular phone and in-person contact associated with the MSP program
- Travel to vendor sites and promote communication with the end users within the assigned market area/skill set.
- Assisted Program Manager develop process flows and guidelines for new Program as well as perform SQL queries for client reporting
- Manage twenty-five vendors simultaneously while maintaining a positive relationship with the client.

**MICROSOFT** – Seattle, WA

**2013 to 2014**

### **Marketing / Advertising Analyst**

Consulted with clients to increase product visibility leveraging key technology and tools and leading to material increases in page views and click through....

#### *Significant Accomplishments:*

- Evaluated and escalated to FORT premier risk online account ads for relevancy, quality, and policy structure, allowing them to serve on the web.
- Promoted as a member of Bing's Live Listing team, implementing new policy to serve as a final point of review for all ads currently running, handled multiple projects at once.
- Trained and updated new team members

## **PROFESSIONAL CERTIFICATIONS & MEMBERSHIPS**

**CDK Global Hackathon Top 5:** One of 5 members. Primarily responsible for the AngularJS portion. Dynamically pulled VINS from a JSON object. The project went into production and projected to save CDK up to 1.5 million dollars.

Bing Ads Accredited Professional  
April, 2013-Present

## **EDUCATION**

B.A., Washington State University, Pullman, WA
